## **Inflatable Operating Instructions**

### **Setting up Inflatable**

1. Locate game as close to electrical source as possible.
2. If not on grass, using a ground tarp under game is recommended.
3. Unroll inflatable and look for blower inflation tube. These will be located on the side or back of inflatable.
4. Set blower by blower tube. Slip end of tube over nozzle and cinch tight with strap.
5. Check unit to see that deflation zippers are closed. (placement will vary on different games)
6. Each blower will need a designated 20 amp grounded circuit
7. Plug blowers in, inflatable will take about 5 minutes to become fully inflated (if it does not inflate all the way, check your zippers, one is open or blower tube is not straight)
8. For added stability, we recommend that you tie down or stake the inflatable to the ground.  
Do not operate in high winds or adverse weather conditions.
9. The game is now set for operation.
10. We recommend adult *supervision* on games at *all times*.

### **Taking Down Inflatable**

1. Make sure all participants off game and at least 10 feet from the game.
2. Unplug the blowers.
3. Open all deflation zippers on side of games.
4. Allow inflatable to deflate for about 10 minutes.
5. Fold each side in to the center.
6. Fold over one more time.
7. Starting at the front of each piece roll as tight as possible.

### **To Help Protect Your Inflatable**

Clean it regularly with a multi-purpose cleaner like Simple Green.  
Treat the vinyl occasionally with a vinyl protector like Armour All.  
Never roll up if wet! It can mildew. If it becomes wet- inflate with blowers until dry.
